

Express Your Walls

Installation Guide for Vinyl Lettering

STEP 1:

First apply the quote with masking tape to the wall. This will allow you to place it where you want it and to arrange the perfect layout.

The quotes have a transfer tape top (looks and feels like masking tape), and a backing paper that the quote is attached to (white shiny side).

STEP 2:

Before peeling the backing paper off, rub the surface top (the transfer tape top) to ensure the quote is adhered solidly to the transfer tape.

STEP 3:

Flip up the quote.

Carefully peel the backing paper away from the quote. The quote should remain on the transfer tape.

Slowly place the taped quote down against the wall.

STEP 4:

Lightly rub the quote with your hands from the center outwards avoiding any wrinkles in the finished quote.

Then use the wooden burnisher to rub the quote onto the wall.

STEP 5:

Carefully peel off the transfer sticking paper from the wall beginning in the upper right hand corner and pull at an angle.

Rub your quote to ensure it has adhered completely to the wall as you are peeling.

If you have wrinkles, use a pair of tweezers or a sharp knife to lift the wrinkle up and reposition the lettering back against the wall, paying close attention to the edges.

STEP 6:

You are done! Enjoy!
